

April 7, 1976

PRESIDENT: Read the motion.

CLERK: I move to suspend.... I move that Rule 6, Section 5(b) be suspended and the bills set for Final Reading on April 8th be read today. Signed, Senator Burbach.

PRESIDENT: Senator Burbach.

SENATOR BURBACH: Mr. President, members of the Legislature. We have done this the last several days. According to our own rules we had to set these bills for Final Reading on the 8th which would provide that time by our own rules, but by suspension of this Rule we can still comply with our Constitution so we need to suspend our own rules to take up those bills which have been on Final Reading for one intervening day and, therefore, ... a legislative day. Therefore, I ask for the suspension of the rules.

PRESIDENT: Any further discussion? Record your vote. Excuse me. Senator Dickinson. I'm sorry, your light came on....

SENATOR DICKINSON: I just turned it on, Mr. President. That's fine. I guess I have a question of Senator Burbach if I may.

PRESIDENT: Could you cancel this vote please. I didn't recognize that light as soon as I should.

SENATOR DICKINSON: Are we talking about the bills that are scheduled for the 7th on Final Reading? Are we suspending the rules for those bills?

CLERK: Bills set for the 7th on the worksheet are really dated the 8th. It says on there that they can be read the 7th only by suspension of the rules.

SENATOR DICKINSON: OK. We're not talking about the one we acted on this morning.

SENATOR BURBACH: No, no, not at all.

SENATOR DICKINSON: Thank you Mr. President.

PRESIDENT: Alright the question is the adoption of Senator Burbach's motion. Record your vote. Record. Announce the vote. Oh excuse me, I'm sorry.

CLERK: 32 aye, Mr. President, 0 nays.

PRESIDENT: The motion is adopted.

CLERK: Mr. President, LB 76 comes up first. We have a request by Senator Frank Lewis, who had to attend a Doctors appoint, to lay 76 over to the bottom of General File.

PRESIDENT: Alright.

CLERK: ... bottom of Final Reading.
